Client minded

Join us in the Devoteam Adventure!

Devoteam Belgium is a strong **professional services** player active in the Digital World of IT, Telecom and Media. In Belgium, we are with a team of 250 highly skilled professionals in Digital **SMACS**:

Social, **M**obility, **A**nalytics, **C**loud & **S**ecurity

connected with an international Group of 4600 colleagues in 17 EMEA countries.

Digital Workplace is one of our 3 core Group offers. We enable customers to structure collaboration and build Case Management solutions, by integrating into portals like Microsoft's SharePoint the structured contexts and processes that customers have already implemented on their CRM, ERP or other Line-of-Business (LoB) Applications.

If you can bring:

- ❖ Bachelor or Master's degree in IT or Telecom fields
- ❖ Skills needed to design and conceive technical architectures, run benchmarks as well as advise customers on technical choices
- ❖ Professional expertise in performing diagnostics, technical surveys of the IT infrastructure, evaluations and monitoring the technical impact of new solutions
- ❖ Operational knowledge of Unix, Linux and Cisco Network Administration
- ❖ The skills needed to conduct acceptance tests of each component (system) used in the solution as well as testing the final end-to-end solution by running a full test cycle
- ❖ Communication skills to work well in a team as well as being able to handle working autonomously
- ❖ Fluent in Dutch and/or French as well as a good working knowledge of English

We offer you:

- ❖ A challenging and variable job in an international and dynamic company. Thanks to the personal follow up, we are able to provide real career opportunities and planning.
- ❖ An attractive and competitive remuneration package with company car, group assurance and DKV.
