connected with an international Group of 4600 colleagues in 17 EMEA countries.

Digital Workplace is one of our 3 core Group offers. We enable customers to structure collaboration and build Case Management solutions, by integrating into portals like Microsoft's SharePoint the structured contexts and processes that customers have already implemented on their CRM, ERP or other Line-of-Business (LoB) Applications.

If you can bring:

- ❖ Skills needed to design and conceive technical architectures, run benchmarks as well as advise customers on technical choices
- ❖ Professional expertise in conducting diagnostics and technical surveys of the IT infrastructure, and evaluate and monitor the technical impact of new solutions
- ❖ Operational knowledge of Unix, Linux, Databases, SQL, Java, PHP, Perl, Bash, HTML 5, .NET, ...
- ❖ Enthusiasm to work on video streaming, Digital and interactive TV, VOD, DLNA and Media Center
- ❖ Technical insight to integrate and rollout solutions regarding media through Application Services, middleware platforms, database adaptors and server platforms
- ❖ The skills needed to maintain an overview regarding the maintainability and control of the solution
- ❖ Fluent in Dutch and/or French as well as a good working knowledge of English

We offer you:

- ❖ A challenging and variable job in an international and dynamic company. Thanks to the personal follow up, we are able to provide real career opportunities and planning.
- ❖ An attractive and competitive remuneration package with company car, group assurance and DKV.
